RE: Petition for Expedited Review of Growth Code Denial by the Number Pooling
Administrator Relating to the Regional Medical Center at Memphis
Docket 05-00242

Dear Mr. DeBoard:

In response to your request, we are providing additional information for this Petition.

First, we are submitting a revised Exhibit H that replaces the exhibit filed with our petition in its entirety. This revised Exhibit includes utilization information for all codes in the Memphis Main Wire Center whereas the original Exhibit H included information for only part of that wire center.

Second, we have confirmed that the customer is requesting numbers in the range from 901-515-3000 to 901-515-3999 for their business facility located in the Memphis Main Wire Center. Our Petition included number utilization data for that wire center in Exhibit H.

Finally, we have also confirmed that 901-515-3 block is not currently assigned to any carrier in the Memphis Rate Center and is, therefore, available for assignment in this rate center by the Pooling Administrator.

We apologize for any confusion resulting from the original Exhibit H filed with this Petition. Please contact me if you have any additional questions.

Yours truly,

Attachment
